

This is the home page. It currently has a small logo from another website, but this log will change. When the logo or the Title next to it is click, it should always return to the home page.

When the apps icon is clicked, this little drop down comes down. Clicking on the apps icon or anywhere on the page should make this drop-down menu to disappear. Notice that this drop-down has a little log and a clickable sample text. When clicking on the little logo or the sample text, a new tab with a different page opens.
